Doug Smith  
Chief Operating Officer  
Magpul Industries Corp.  
P.O. Box 17697  
Boulder, CO 80308

Dear Mr. Smith,

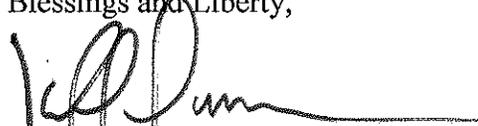

You may have heard that recently I wrote a letter to the CEO of Remington Arms inviting them to move their New York facility to my home state of South Carolina. Now, I am writing to extend the same invitation to you and Magpul Industries Corp., to consider moving production at your Erie plant in Colorado to the Palmetto State.

As a native South Carolinian, I know firsthand the reasons our state is a welcoming home to any company seeking to freely create a product and sell it on the market. Our right-to-work status and overall business climate have freed companies such as Boeing, BMW, Michelin, Amazon, Bridgestone, and ZF to flourish while also allowing our citizens to pursue their dreams via employment with these outstanding companies.

But beyond our sterling business environment is the reason for my invitation. Recently many states have considered implementing new bans and placing more restrictions on our Second Amendment rights, including Colorado. At a time when our government is consistently thwarting the ability of individuals to own businesses, voluntarily trade goods and services, and grow our economy, South Carolina is committed to writing a different story. In South Carolina, we believe in the right to keep and bear arms. We believe in free enterprise. We believe in the right to life, liberty, and the pursuit of happiness. Our state welcomes any individual or business who believes the same.

It would be an honor to welcome Magpul, one of the largest and most profitable manufacturers of high-capacity ammunition magazines, to the Palmetto State. Should you ever need assistance in this matter, you are welcome to contact me at my Washington, DC office via phone at 202.225.5301. I look forward to working with you in the future.

Blessings and Liberty,

Jeff Duncan  
Member of Congress
